*Ten years ago, 4 distinguished Boys of Summer continued a journey that started back when they were children. It was a simpler time then: when the main focus of their lives centered on ball diamonds and big league dreams. This journey, through the back roads and busy streets of America has fueled a movement: One that appears quiet compared to the glaring headlines of today's world...but when we truly listen, it screams louder than any of us can comprehend.*

*It brings a message of Hope, of Awareness and of Choice.*

*It encourages our children to follow their hearts and commit to their dreams...  
Some people ask, "Who are the King of Diamonds?" to which there is only one answer...  
for this is God's Team and we are all just trying to make the first cut.*
